

Dear Members of the Europe Direct Network,

As Europe starts the long path to recovery from COVID-19, the **European Commission will launch the new, modernised Europass**. From 1st of July 2020, the new Europass will provide **learners and workers** with useful **tools and information**, which will help them manage their career in a fast changing world.

What exactly is being launched?

With the new Europass learners and workers across Europe can register and create a profile to record all their skills, qualifications, interests and experiences. Based on that users will receive **tailored suggestions of courses and jobs** (via EURES) in their portfolio. If they want to apply for opportunities users can **prepare CVs and cover letters** using the new online editor. They can also choose to add files (documents, diplomas, images) to a personal library so that their information and documents are all available in one secure location. Users can also **share a link to their profile** with employers, recruiters and employment services for advice and support on their careers.

As well as new tools, learners and workers across Europe can also access **relevant information on learning and working in Europe** including **links to national services** provided by Member States. This information as well as all tools will be available in **29 languages** and for free, in hope to inspire many Europeans to take the next step in their learning and career with Europass.

A full overview of the all the features of the new Europass [can be found via this link](#).

What communication material is available?

We set up a dedicated Wiki page where you can find all our communication material, such as editable templates, the new brand mark, key messages and many other things. Additional communication material, such as videos, visuals and GIF, will be available in the days before the launch. Please find the Europass Wiki via [this link](#).

Want to stay informed, organise events or reach out?

If you want to organise local events and promotions around the new Europass you always have the option to contact your National Europass Centre for support. Please find all contact details via [this link](#).

If you want to further follow the evolution of the Europass project, please do join our project website, which you can find via [this link](#).

For any question please reach out via EC-EUROPASS-SUPPORT@ec.europa.eu
