DT-GOVERNANCE-13-2019: Digitisation, Digital Single Market and European culture: new challenges for creativity, intellectual property rights and copyright

- Consequences of digitisation and implementation of the Digital Single Market on cultural diversity, access to culture and the creation of cultural value
- Coping strategies for intellectual property rights (IPR) and copyright at European and national levels
- Impact of digitisation on access to European cultural goods and services
- Comparative cross-national mapping of differences in governance of IPR and copyright harmonisation
- Access and stimulate creativity, creative (re)use and production
- Importance of Digital Single Market for for-profit, non-profit and mixed cultural and creative activities in Europe

ERA-NET Co-fund

(1 x 3 mio EUR)

Impact:

- engender effective transnational, pan-European research networks
- create European value added synergies
- inform policy making at various levels of governance
- recommendations on how democratic governance can be made more resilient

GOVERNANCE-14-2018: ERA-NET Co-fund Renegotiating democratic governance in times of disruptions

- Analyse scale & nature of major challenges to democratic governance
- Address fundamental issues e.g. relation between capitalism and democracy also from a historical perspective
- Consider effect of rising inequalities, the politics of threat, democratisation of information, shifting identities and the changing authority of institutions for democracies
- Analyse shifting impact of e.g. educational and socio-economic background
- Involvement of stakeholders in the shaping of research design, approaches as well as dissemination

European Commission

CSA

(1,5 mio EUR)

Impact:

- Contribution to ongoing and future practices of inter-disciplinarity
- Identification of areas particularly suited for genuine interdisciplinary cooperation between SSH and other sciences

GOVERNANCE-15-2018: Taking lessons from the practices of inter-disciplinarity in Europe

- Analyse inter-disciplinarity inside and outside of Horizon 2020 in the EU and beyond where relevant
- Inter-disciplinarity in this topic means both between SSH and STEM, but also within the Social sciences and Humanities
- Learn from what has been done (or not done) in the past and come up with options for improvement
- SSH experts in close coordination with experts from other fields should analyse best practices and failed attempts – and evaluate programmes and projects
